

Construction

Fine-stranded tinned copper conductor, insulation of silicone (2GI1), impregnated fibreglass braiding.

Application

This wire is well suited for internal wiring in lamps, instruments, control panels and distributors. It is used for high mechanical stress, as the fibreglass braiding protects the silicone insulation from mechanical damages. It is halogen-free and heat resistant.

Temperature range

In motion	- 25°C till + 180°C
For fixed installation	- 40°C till + 180°C
Short-time use	+ 250°C
